

The map displays the North Atlantic region, including the eastern coast of North America, Greenland, and Iceland. Sampling locations for the 2014-2015 season are indicated by red dots and labeled with codes. The locations are as follows:

- FEW (Far Eastern Waters):** Located at the eastern tip of North America, near the Gulf Stream, and further east in the North Atlantic.
- SCT (South Central Tropical):** Located further west in the North Atlantic, near the coast of Greenland and Iceland.
